

Cisco City Digital Platform

Bogdan Doinea

Arhitect Smart City

8 Noiembrie - 2016

Cities needs to find new ways to enable citizen interaction and deliver services

Traffic
Management

Public Safety

City Lighting

Pollution/
Environment

Waste
Management

Parking
Optimization

**Cities traditionally address these challenges in silos.
This Fragmented Approach Is Inefficient.
Citizens are uninspired. The challenges are not solved.**

Transportation

Utilities

**Smart+Connected
City Digital Platform
